

thumbstick grips

Shockingly effective

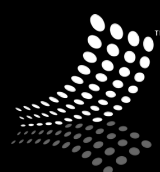

"It's crazy how strong the grip is. You can feel the pull on the tips of your fingers, even when you're not moving them actively. You have to feel it to believe it. I will be buying more, and freaking my friends out with how strong it is, haha." - J. Aldridge

Setex

Our Technology

Setex microfibers are designed like geckos' toe hairs, or setae, to provide a comfortable and secure grip.

Thousands of mushroom shaped fibers mimic geckos' toe hairs - i.e. setae.

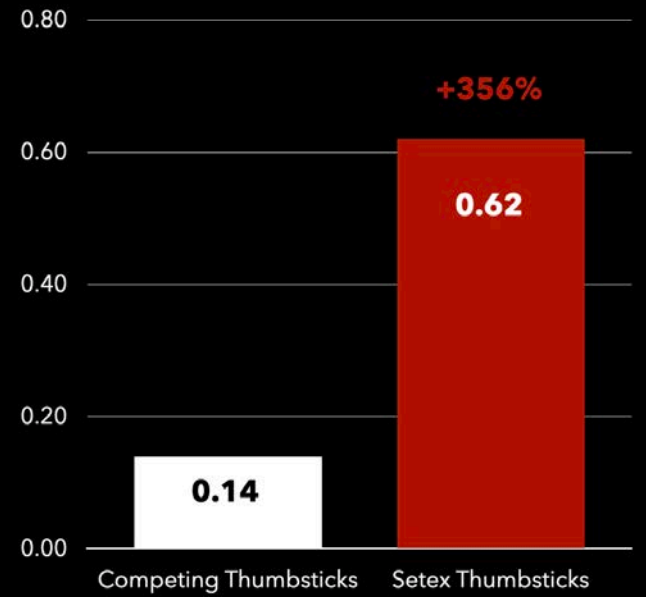

Flexible Setex fibers provide soft, comfortable contact to skin.

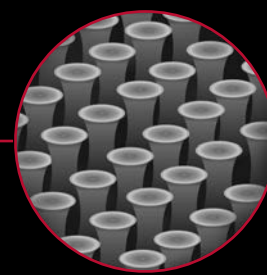

Setex's microstructures provide a secure grip in wet and oily conditions.

Coefficient of friction to wet and oily synthetic skin

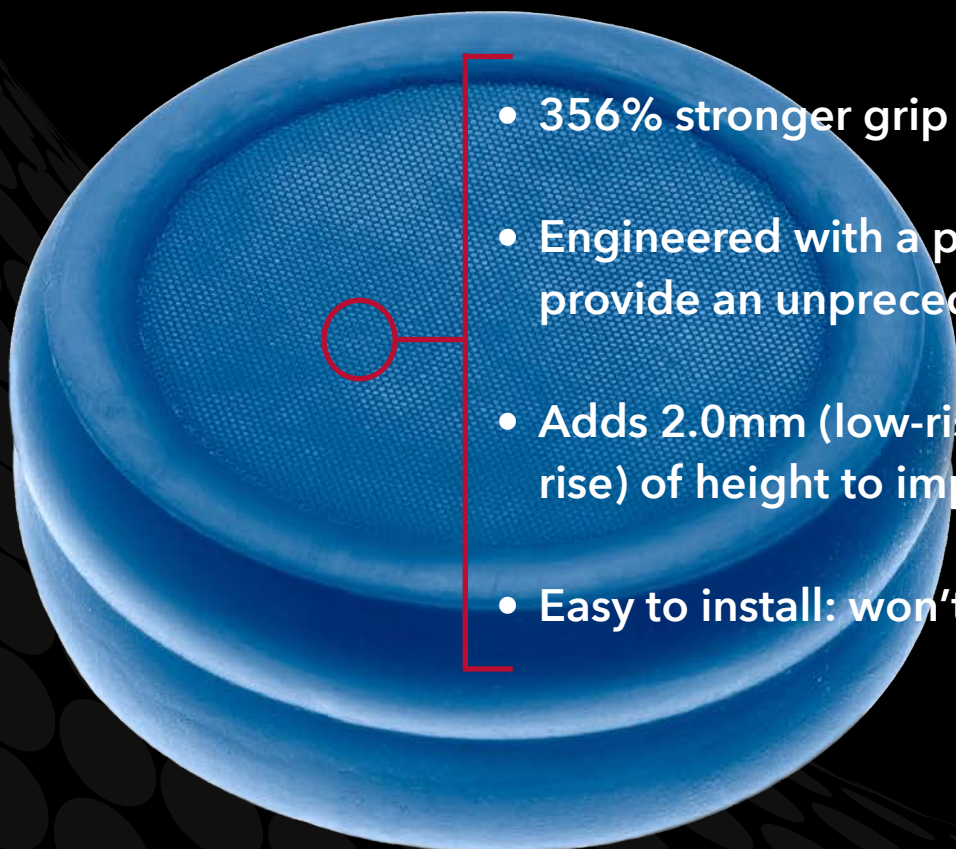

biology

biomimicry

product

- 356% stronger grip on sweaty thumbs than the competition
- Engineered with a patented gecko-inspired technology to provide an unprecedented grip
- Adds 2.0mm (low-rise), 6.0mm (mid-rise) and 11mm (high-rise) of height to improve comfort and accuracy
- Easy to install: won't damage thumbstick or slip off

products
